--	-----------------	-----------	--

ABOUT UDATA

Udata is a technology company specializing in Digital Transformation and Green Transformation solutions powered by AI and AIoT.

We work alongside factories, buildings, and industrial parks to:

- Digitize operations
- Monitor real-time data
- Optimize energy usage
- Support sustainable development

At Udata, interns are involved in real projects and practical business activities instead of only administrative tasks.

Sustainable development — not just a goal, it's a mission we share with each and every customer.

AI & AIoT	Green Transformation	Digital Transformation
-----------	----------------------	------------------------

Our Core Products

Uboard Real-time IoT monitoring & analytics platform	Ugate Enterprise digital transformation platform
